

Resume – Network Engineer & Aspiring Cloud Computing Specialist

[Your Full Name]

 [City, Country]
 [Phone Number]
 [Email Address]
 [LinkedIn Profile] | [GitHub/Portfolio]

Professional Summary

Detail-oriented and performance-driven **Network Engineer** with a strong foundation in network infrastructure, security, and troubleshooting, transitioning toward **Cloud Computing**. Skilled in designing, implementing, and maintaining scalable network systems, with growing expertise in cloud platforms, virtualization, and automation. Passionate about building resilient, secure, and future-ready IT environments.

Core Skills

- Network Design & Administration (LAN/WAN, TCP/IP, DNS, DHCP)
 - Routing & Switching (Cisco, MikroTik, Juniper)
 - Network Security (Firewalls, VPNs, IDS/IPS)
 - Cloud Platforms (AWS, Microsoft Azure, Google Cloud – foundational knowledge)
 - Virtualization (VMware, VirtualBox)
 - Linux & Windows Server Administration
 - Scripting & Automation (Python, Bash – basic/intermediate)
 - Monitoring Tools (Wireshark, Nagios, SolarWinds)
 - Troubleshooting & Performance Optimization
-

Professional Experience

Network Engineer

[Company Name] — [City, Country]
 [Month, Year] – Present

- Designed and maintained enterprise network infrastructure ensuring high availability and performance
- Configured routers, switches, and firewalls to support secure data transmission
- Monitored network performance and resolved issues proactively
- Implemented VPN solutions for secure remote access
- Collaborated with IT teams to optimize system integration and scalability

IT Support / Junior Network Technician

[Company Name] — [City, Country]

 [Month, Year] – [Month, Year]

- Assisted in installation and configuration of network devices
 - Troubleshoot connectivity and hardware issues
 - Supported users and maintained documentation of network systems
 - Gained hands-on experience with basic cloud services and virtualization tools
-

Education

 Bachelor's Degree in Computer Science / Information Technology

[University Name] — [Year]

Certifications

- Cisco Certified Network Associate (CCNA) (*or in progress*)
 - AWS Certified Cloud Practitioner (*or in progress*)
 - Microsoft Azure Fundamentals (AZ-900) (*optional*)
-

Projects

Cloud-Based Web Application Deployment

- Deployed a scalable web app using AWS (EC2, S3, IAM)
- Configured load balancing and basic auto-scaling
- Implemented security best practices for cloud infrastructure

Network Simulation & Design

- Designed a multi-branch network using Cisco Packet Tracer
- Configured routing protocols (OSPF, RIP) and VLAN segmentation

Languages

- English (Professional)
- [Other Languages]

Career Objective

To leverage my network engineering expertise while advancing into **cloud computing**, contributing to modern infrastructure solutions that are scalable, secure, and efficient.

Additional Information

- Strong analytical and problem-solving skills
- Quick learner with adaptability to emerging technologies
- Team-oriented with excellent communication skills

(Tip: Replace placeholders like [Your Name], [Company], etc. Customize based on your actual experience.)
